INTERVIEW QUESTIONS

After reviewing the assessment results for this candidate, you may want to conduct a structured interview to further explore and clarify some specific concerns. The interview questions listed below reflect areas of concern raised by the assessment results. You should keep asking questions until you have gained confidence in your assessment of the candidate. You can use some or all of these questions when interviewing the candidate. You will probably want to customize these questions to best fit your style and what you already know about the candidate as well as the job for which s/he is being considered. Most of these are behavioral description items which ask the candidate to describe specific behavior on the job. Some additional probes which you might want to use with individual questions are:

- * When did this take place?
- * What factors led up to it?
- * What were the outcomes?
- * What did others in the organization say about this?
- * How often has this type of situation arisen?

EMOTIONAL STABILITY/RESILIENCE

- Tell me about a time when you had to keep on working despite having some problem or concern weighing on your mind. [Probes: How long did it go on? How was it resolved? How often has this kind of thing happened in the last six months?]
- Stress is a natural part of most work environments these days. Describe a situation where some significant form of stress has impacted you on your job and how you dealt with it.
- Describe a situation where you learned to live with something stressful at work.

EMPATHY

- Tell me about a time when you were dealing with a difficult person. What made them hard to take? What was going on that made this person act or feel that way? (Listen for a broad understanding of that person's personality and an understanding of the context that might have contributed to the situation.)
- Tell me about a time when you counseled an employee (or peer) who was going through a difficult time. What was the problem? What did you do? What was the result?
- Describe a time when someone at work responded emotionally to something you said or did. How did you respond? What was the result? (Listen for awareness of body language, voice tone, etc. as well as an ability to see the person in distress, not necessarily someone who is just offensive.)

INTEGRITY

- What would you do if you discovered that a coworker had been taking home office supplies without permission and without telling anyone?
- Under what conditions would it be acceptable to ignore or bend a company rule or policy?
- Describe what you would do if your boss asked you to keep quiet about some data he or she was falsifying for the annual company report.

- Under what circumstances would it be OK to claim a sick day (even though you were not sick) to deal with a personal problem at home?

NURTURANCE

- Tell me about a person with whom you have been in a care giving relationship . How was it difficult for you? How was it rewarding?
- Tell me about a person who has depended on you for service of some kind . What did you do for them? In what ways did you try to take care of their all of their needs -- not just the immediate request? (Listen for someone who tries to understand what the other person is going through and who tries to do something extra to deal with the objective need as well as the emotional needs.)
